## Guarantee Extension

### Exclusive Extended Guarantee Service for G-CAM Prostheses

Graphenano Dental launches the **Extended Guarantee Service**, a solution designed to offer peace of mind and security to both dental clinics and patients who trust in our technology. This service is available in three options: **5, 10, and 20 years**, allowing dental centers to offer their patients exclusive coverage for the replacement of prosthetic structures made with **G-CAM**.

To access this service, the clinic must have received specialized training from **Graphenano Dental** to ensure proper use of the material. Additionally, upon purchasing the extended warranty, documentation including the information of the installed pieces and the corresponding design file will be provided.

#### What does the extended guarantee cover?

- Replacement of the graphene structure only, according to the selected plan.
- Exclusive access to centers certified by Graphenano Dental.
- Coverage and guidance regarding the treatment

#### What is NOT covered by the guarantee?

- Loss of implant supports.
- Attachments or reinforcement structures used in the treatment.
- Changes not recommended by the dentist.

#### Extended Guarantee Options

- ◆ **Silver (5 years)** – 2 replacements of G-CAM prosthetic structures. **Price: €500**
- ◆ **Gold (10 years)** – Up to 3 replacements of G-CAM prosthetic structures. **Price: €990**
- ◆ **Platinum (20 years)** – Up to 4 replacements of G-CAM prosthetic structures. **Price: €1.400**

### How does the service work?

1. **The dental clinic signs up for the service** through the designated website (smileforever.graphenanodental.com).
2. **Patient, clinic, and specialist information is registered.**
3. **Technical information about the treatment is recorded.**
4. **Graphenano Dental will review the documentation** and may approve or reject the service if the design does not meet the established criteria.
5. If approved, the clinic will receive a certificate confirming warranty coverage. If rejected, the payment will be refunded through the same channels.
6. **The patient must attend annual check-ups** at the clinic where the treatment was performed to maintain the

### What documentation must be provided?

- Completed Warranty Application Form, including the clinical report and chosen prosthetic treatment.
- Intraoral scan used to create the prosthesis.
- CAD project, done by the lab or clinic.
- Lot or serial number of the material used in the prosthesis.
- Patient photo with the prosthesis in place (before and after).

### Benefits for the Dental Clinic

- ✓ **Stand out and build patient loyalty** with a premium service.
- ✓ **Reduce risk and liability**, as Graphenano Dental assumes prosthesis coverage.
- ✓ **Listed as a certified center on GD's website**, with visibility in marketing campaigns.
- ✓ **Receive patient referrals** through Graphenano Dental's channels.
- ✓ **Avoid guarantee-related conflicts** and boost patient trust.
- ✓ **Access exclusive marketing materials** to promote the service and attract more clients.
- ✓ **Flexible offer**: the clinic can finance the cost, offer it as an add-on service, or include it in the treatment price.

### Benefits for the patient

- ✓ **Guaranteed replacements**: coverage against any eventuality.
- ✓ **Long-term security**, with replacements according to the chosen plan.
- ✓ **Use of the most advanced material** for their mouth, with all the advantages of G-CAM (strength, lightness, durability).
- ✓ **Peace of mind and confidence** in their treatment, backed by a leading company in biomaterials innovation.

### Ensure maximum quality in your prosthetic treatments!

Ask your dental clinic about the **Extended Guarantee** and enjoy a protected smile for up to **20 years**.
